

This is the SICAS modified version of the SunGard Banner Student 7.5.1 Release.

This upgrade should only be applied after the successful installation of

Student 7.5S General 7.5S

SunGard Release Highlights:

This release contains modifications and enhancements as a result of:

- ACT 2008- 2009 Regulatory Changes
- Faculty Contract Term Rules Form (SIAFLCT)
- Registered Not Paid Process (SFRRNOP)
- Electronic Data Interchange Extract (SHREDIY)
- Repeat Equivalent Course Check Report (SHRRPTS)
- Electronic Application Search Form (SOAEIDN)
- Problem Resolutions

This release contains modifications and enhancements as a result of MANY problem resolutions.

Please review the SunGard Banner Student 7.5.1 Release Guide for further details of these items, changes, and new enhancements related to this release upgrade.

SunGard has provided the following documentation with this release:

Student Release Guide 7.5.1
Student Upgrade Guide 7.5.1

SunGard documentation can be found on the SICAS website at
<http://sicasnt1.oneonta.edu:9010/pls/full92/BWCKYNTS.PY> EXTENDED

SICAS manuals can be found on the SICAS website at
<http://sicasnt1.oneonta.edu:9010/pls/full92/BWCKYDOC.PY> SICASMANUALS

Miscellaneous Enhancements:

Act 2008-2009 Regulatory Changes:

This enhancement provides regulatory updates for ACT Electronic Student Record 2008 - 2009 (Colleges and Universities) processing with regard to email addresses for electronic prospects. Updates have been made in Banner Student to accommodate the regulatory changes.

Faculty Contract Term Rules Form (SIAFLCT)

This form has been modified for problem resolution #1-3D153R. The **Default Term** field has been renamed **Copy From Term** and has been moved to the Key Block. The **Copy From Term** values are selected from a list of values from STVTERM or from a list of faculty contract term rules. The **Copy** button has been added to the Key Block and is used to copy term contract rules to a future term.

Registered Not Paid Process (SFRRNOP)

Population selection parameters have been added to the report for: Population Selection Indicator, Application Code, Selection Identifier, Creator ID, and User ID.

The Population Selection Indicator parameter is required. Enter Y to use population selection or N to not use population selection. This parameter is temporary and will be removed in a future release.

Electronic Data Interchange Extract (SHREDIY)

This extract process has been updated for problem resolution #CMS-DFCT93949. Two new parameters have been added for Process Rqsts Awaiting Grades and Process Rqsts Awaiting Degrees.

- The Process Rqsts Awaiting Grades parameter is required. It is used to process

requests that learners want held until end of term grades have been rolled to academic history. Enter *Y* to process requests waiting for end of term grades or *N* to process requests that are not waiting for end of term grades. The default value is *N*.

- The Process Rqsts Awaiting Degrees parameter is required. It is used to process requests that learners want held until their degrees have been posted to SHADEGR. Enter *Y* to process requests waiting for degrees to be posted or *N* to process requests that are not waiting for degrees to be posted. The default value is *N*.

Repeat Equivalent Course Check Report (SHRRPTS)

Population selection parameters have been added to the report for: Application Code, Selection Identifier, Creator ID, and User ID.

Electronic Application Search Form (SOAEIDN)

The Electronic Applicant Search Form (SOAEIDN) has been modified for RPE #1-AGLB5. The **Middle Name** and **Birth Date** fields have been added and are queryable. These changes were delivered in Release 7.5.

Problem Resolutions:

Please read the SunGard Banner Student Release Guide 7.5.1 for details on the problem resolutions that are shipped with this release. Resolutions impact the following modules:

- Student
- Class Schedule
- Faculty Load
- General Person
- Catalog
- Location Management
- Recruiting
- Admissions
- Registration
- Academic History

SICAS Release Highlights:
