Students graduating from the MA degree program in school psychology are not eligible for employment in school psychology at the time they graduate. They cannot finish the program in school psychology until the internship is completed, at which point they will receive their CAS degree. School districts pay them a stipend as interns, yet they are considered full-time students, not employees.

Intern sites this year included the following:

### School District
- Addison Central School: School Psychology Intern
- Allegany-Limestone School District: School Psychology Intern
- Allegany-Limestone School District: School Psychology Intern
