Special information about art-related outcomes

Art students often have a broader definition of career success than many other students, and their beginning jobs out of college reflect this. Many of our BAFA graduates are actively making, showing and/or selling their work. Several of these are supporting themselves with jobs that may not appear to be related to their major but are allowing them to pursue their career goals. Please review the information below in that context. Note that percentages will not add up to 100, as many graduates listed several outcomes (e.g. “freelance work” and “employed full time”)
