

GAREGIN GRIGORYAN, PH.D.

grigoryan@alfred.edu ◊ 607-871-2674

EDUCATION

- **Rochester Institute of Technology, Rochester, NY** *May 2018 - August 2020*
Ph.D., Computer Science.
- **Clarkson University, Potsdam, NY** *January 2016 - May 2018*
M.S., Computer Science. Transferred to Rochester Institute of Technology.
- **National Research Nuclear University 'MEPhI', Moscow, Russia** *September 2007 - July 2012*
Diploma, Automated data processing and management systems.

WORK EXPERIENCE

Alfred University *Starting August 2020*
Assistant Professor

- A tenure-track position in Math and Computer Science division.

Rochester Institute of Technology *May 2018 - August 2020*
Adjunct Faculty Instructor
Research and Teaching Assistant

- Taught CSCI-651 online course (Foundations of Computer Networks).
- Research projects: FIB compression (aggregating and caching), integrating Kubernetes and RDMA, network security via programmable data plane.
- Held office hours for Computer Algorithms course. Graded weekly tests and exams.

Cisco Systems *June 2018 - December 2018*
Software Engineer Intern

- Developed and executed performance tests for Mellanox NICs via DPDK, VPP and TREX with a different number of cores/threads enabled and other parameters.
- Developed a software to test Cisco-developed P4 switch. Executed various tests in P4 behavioral model environment (bmv2) and identified several bugs, including a one in the original bmv2 code. The software is still in use at Cisco.
- Administrated RedHat Linux infrastructure and NIC software on several machines of a Cisco Lab in RTP.

Clarkson University *January 2016 - May 2018*
Research and Teaching Assistant

- Research projects: FIB compression (aggregation and caching), verification of routing tables, IoT security, green-energy aware routing via SDN and programmable data plane.
- Instructed and held office hours for Computer Science I and II, Operating Systems, Computer Networks courses. Received positive evaluation from students.

Diasoft (Moscow, Russia) *November 2012 - December 2015*
Leading Implementation Specialist and Analyst

- Promoted from an Implementation specialist to the Leading implementation specialist position.
- Troubleshoot and setup complex multimodal banking software. Conducted employee training.
- Performed a leading role in multiple projects. "Best employee-2014" awardee.

RESEARCH INTERESTS

Routing scalability, Software-Defined Networking, Programmable Data Plane, Green Computing, mitigating application layer attacks, Named Data Networking, RDMA.

PROFESSIONAL ACTIVITIES

- **Reviewer:** IEEE Access, IEEE Systems, IEEE OJ-COMS, Elsevier Computer Networks.
- **Conference talks:** ACM HPDC 2020; ACM CoNEXT 2019; IEEE NCA 2018; IEEE INFOCOM 2018.
- **Travel grants:** ACM CoNEXT at UCF (December 9-12, 2019); IEEE ICNP at UIC (October 7-10, 2019); ACM SIGCOMM at UCLA (August 21-25, 2017); NANOG 70 in Bellevue, WA (June 5-7, 2017); GENI Summer Camp at Boston University (May 24-27, 2016); “Oregon Cyber Security Day” workshop at University of Oregon (April 21-22, 2016).
- **Poster presentations:** The 27th IEEE ICNP (2019), UIC; 1st Research and Project Showcase (RAPS), Clarkson University (2017); GENI Engineering Conference 25, Miami FL (2017); 3rd Graduate Student Symposium, Clarkson University (2016);
- **Patents:** Y. Liu and **G. Grigoryan**, US Patent App. 16/294,171 2019; US Patent App. 16/294,529.

BOOK CHAPTER:

- Y. Liu, **G. Grigoryan**, Laurent L. Njilla, Charles A. Kamhoua, ”Leverage SDN for Cyber Security Deception in Internet of Things” in ”Modeling and Design of Secure Internet of Things”, John Wiley & Sons, 2020, 704 pages, ISBN: 1119593379, 9781119593379.

JOURNAL PUBLICATIONS:

- **G. Grigoryan**, Y. Liu, M. Kwon, ”PFCA: a programmable FIB caching architecture”, IEEE/ACM Transactions on Networking, Volume 28 , Issue 4, 2020.
- Y. Liu, **G. Grigoryan**, J. Li, G. Sun, T. Tauber, ”VeriTable: Fast Equivalence Verification of Multiple Large Forwarding Tables”, Computer Networks, Volume 168, 106981, 2019.

CONFERENCE PUBLICATIONS:

- **G. Grigoryan**, Y. Liu, M. Kwon “Boosting FIB Caching Performance with Aggregation, ACM HPDC 2020.
- **G. Grigoryan**, Y. Liu, M. Kwon “iLoad: In-network Load Balancing with Programmable Data Plane”, ACM CoNEXT Student Workshop 2019.
- C. Link, J. Sarran, **G. Grigoryan**, M. Kwon, M. M. Rafique, W. R. Carithers “Container Orchestration by Kubernetes for RDMA Networking”, IEEE ICNP 2019, poster abstract.
- **G. Grigoryan**, Y. Liu, “LAMP: Prompt Layer 7 Attack Mitigation With Programmable Data Planes”, IEEE NCA 2018.
- Y. Liu, **G. Grigoryan**, “Toward Incremental FIB Aggregation with Quick Selections (FAQS)”, IEEE NCA 2018.
- **G. Grigoryan**, Y. Liu, “PFCA: A Programmable FIB Caching Architecture”, ACM ANCS 2018.
- **G. Grigoryan**, Y. Liu, M. Leczinsky, J. Li, “VeriTable: Fast Equivalence Verification of Multiple Large Forwarding Tables”, IEEE INFOCOM 2018.
- **G. Grigoryan**, K. Bahmani, G. Schermerhorn, Y. Liu, “GRASP: a GReen energy Aware SDN Platform”, IEEE INFOCOM CNERT 2018.
- **G. Grigoryan**, Y. Liu, L. Njilla, C. Kamhoua, K. Kwiat, “Enabling Cooperative IoT Security via Software Defined Networks (SDN)”, IEEE ICC 2018 SAC Symposium.
- **G. Grigoryan**, Y. Liu ”Toward a Programmable FIB Caching Architecture”, IEEE ICNP 2017, poster abstract.

SELECTED INDUSTRY PROJECTS

- **Cisco Systems (RTP, NC), 2018:** Developing a test module for a P4 software switch.
- **Diasoft, FLEXTERA Accounting Project in VTB Capital (Moscow, Russia), 2015:** Analyst for “Financial Instruments” Module.
- **Diasoft, FLEXTERA Back Office Project in International Investments Bank (Moscow, Russia), 2015:** Lead implementation specialist for “Financial Markets” Module. Team leader of “Issuance”

Module's development and implementation teams.

· **Diasoft, FLEXTERA Front Office Project in Vietnamese International Bank (Hanoi, Vietnam), 2014:** Senior implementation specialist for “Risk Management” module.

SKILLS

- **Programming languages:** C, C++, Python, SQL, Shell, HTML, CSS, Java, Javascript.
- **Computer networking:** P4, GENI, SDN, OpenFlow, RYU framework, RDMA.
- **Software:** DMBS Oracle, IBM Websphere, Android Studio, Django Framework, Bootstrap.
- **Languages:** English, Russian, Armenian, French.
