The National Association of Colleges and Employers (NACE) has set standards and protocols for First Destination Survey data collection. The Knowledge Rate, reported above, is defined as, “the percent of graduates for which the institution has reasonable and verifiable information concerning the graduates’ postgraduation career activities.” NACE allows relevant data to be collected from multiple sources including LinkedIn, the traditional self-report model, employers, parents, and other sources.

Percentages may not sum to 100% because some respondents indicate multiple positions such as both full-time employment and enrollment in graduate school.
